

-STOPVAPOR- ULTRA-FLAT MIRROR DEMISTERS

Ideal for bathrooms with poor ventilation, but not only, StopVapor guarantees perfect clearness of the mirror surface, in correspondence with the dimensions of the heating foil applied on the back.

Easy to apply, StopVapor is self-adhesive: just place it, after removing the adhesive protection, on the back of your mirror at the desired position.

It is enough to allow a 1 cm space between the wall and the mirror to let the power cable to come out.

Typical standard dimensions:

- 18x28cm 230V 8W
- 28x28cm 230V 16W
- 41x28cm 230V 24W
- 40x40cm 230V 30W
- ø40cm 230V 25W
- ø50cm 230V 40W
- 50x50cm 230V 55W
- 101x44cm 230V 105W
- 100x60cm 230V 145W
- 100x32cm 230V 74W

Alper can also produce dimensions according to the customer's design for single batches

CHARACTERISTICS

- Maximum dimensions: 1000x600mm (various sizes available on request)
- Power and supply voltages on request
- Excellent temperature uniformity
- Functionality without the use of thermal protections, such as thermal fuses, thermal protectors, probes and sensors
- Application of a wide range of double-sided adhesives
- Wiring on customer specification
- Class II and III construction
- 110/230/240V supply voltages and 12/24/48V low safety voltage
- Customer specific design
- Min temperature: 35-40 °C
- Construction according to directive 2014/35/UE
Test according to EN 60335-1 and EN 50106
- S.I. 2016 No. 1101 (Electrical Equipment (Safety) Regulations 2016)
BS EN 60335-1
BS EN 50106
- UL approval E466385, upon request
