

ALPER

INNOVATION IS OUR RESISTANCE

THE NATURE'S WARMTH, ENGINEERED

ABOUT ALPER SRL

Over 30 years in expertise in screen printing technology using cutting-edges inks and flexible materials

FLEXIBLE

SAFE

ENGINEERED WARMTH FOR THRIVING TERRARIUMS

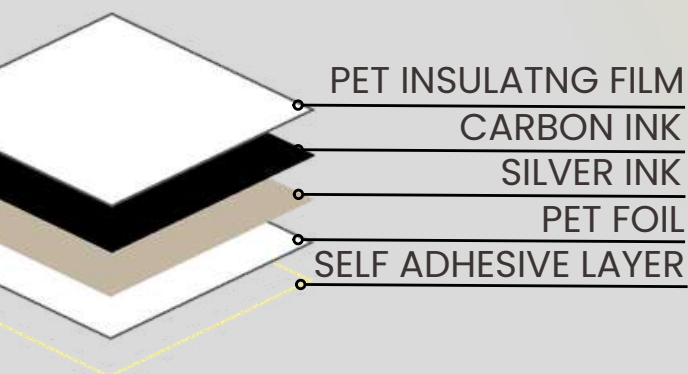

ALPER flexible heating elements provide consistent warmth creating an ideal microclimate for reptiles and amphibians.

Easy to install and built to last, ALPER heating mats support animal well-being, protect sensitive species, and reduce the need for frequent environmental adjustments.

- Power and voltage can be customized to your request
- Best temperature distribution
- Choose between adhesive and non-adhesive options
- Our products can be designed according to your specifications
- Wiring and plug upon customer specification
- II Class construction
- Thermal protections available
- Construction according to directive 2014/35/UE
- S.I. 2016 No. 1101 (Electrical Equipment (Safety) Regulations 2016) BS EN 60335-1 BS EN 50106

**RECREATE
THE SUN'S
EMBRACE
EVERY DAY,
EVERY
SEASON**

Stable terrarium climate: Alper reptile heating mats are designed to provide gentle, targeted warmth inside terrariums and vivariums—perfect for maintaining optimal conditions for cold-blooded species.

NO-COLD SPOTS: Uneven heating can stress reptiles or lead to health problems. Alper mats ensure uniform thermal zones, preventing cold patches and discomfort for your animals.

Animal comfort: Alper heating elements promote reptile wellness by simulating natural basking surfaces, eliminating the need for external heat lamps or constant environmental adjustments.

Fast and uniform heating: Our mats activate quickly and distribute heat evenly across their surface, helping reptiles thermoregulate efficiently while ensuring consistent warmth throughout the day.

Ultra-slim: With a thin, low-profile structure, Alper mats integrate perfectly beneath substrate or enclosure bases—out of sight, never out of function.

Energy efficiency: Designed to direct heat only where needed, Alper heating mats minimize energy waste.

Easy installation & custom fit: Flexible and customizable, Alper reptile mats are compatible with a wide range of terrarium setups. We offer tailor-made solutions for any species, size or enclosure type.

WHY US?

- Over 30 years expertise in printing technologies
- Customization and tailored solutions
- Flexibility and lightweight heating elements
- Cutting-Edge inks and materials
- Cost-Effective manufacturing
- Environmental responsibility
- Durability and reliability
- Sustainable production

Certified organization TUV AUSTRIA ITALIA S.P.A.
